

DEMANDING WORK, CONSTANT PRESSURE
AND NO DOWN TIMES

STANDARD SERIES. ANOTHER RANGE OF OIL-FREE COMPRESSORS.

We have more at www.compact-air.com

The STANDARD SERIES of Compact Air compressors is especially designed to be used as a power source to equipment requiring repeated and short bursts of compressed air. Especially suited for craftsmanship and construction where human-driven equipment is used, such as spraying, nailing, stapling, grinding, and plastering.

The oil-free mechanism guarantees a smooth and low-wear operation with no breakdowns and unnerving maintenance requirements.

Powered by the patented Axxer Motion technology, a single reciprocating piston slides along two low-friction cylinders. It results in constant pressure and optimal performance.

KEY FEATURES

SERIES	Standard
MANUFACTURING	Made in Italy
WARRANTY	3 years
PUMP MECHANISM	Oil-free
POWERED BY	Axxer Motion technology
WORK	Medium-duty, intermittent use
NOISE COMFORT	Tolerable
MAINTENANCE	None up to 1500 hours *
MOTOR	S1 - 100% duty cycle

* Based on 10 bars continuous operations at 40°C
